Benefits of the Bioenergetics Wellness System

Key Insights

Root Causes: We've identified that physical issues often originate from distortions and blockages in the Body-Field, which acts as the master control system for all bodily functions

Restoring Harmony: Our Bioenergetics Wellness System corrects these distortions, allowing the Body-Field to support optimal physiological function more effectively.

Pioneering Expertise: Founded by Harry Massey and the late Peter Fraser, Energy4Life is a global leader in bioenergetics, focusing on the study, detection, and management of energy flow in living systems.

What our clients are saying...

"I chose Energy4Life as a bioenergetics provider because when I had my first impression, my first interaction with the technology. It was so spot on I could not deny the result, and I could not wait for my clients to experience this as well. The first time that I saw results was actually my own results. I was reviewing the scan with a practitioner and I felt so seen because there were several things, things that I had Mysteria about. When I saw the E4L scan there's everything I needed to know in this layer of my healing right in front of me, and it was just so brilliantly done. Then when I wanted more information I was able to just click a few buttons and dive into the depths of seeing how everything was so deeply connected."

Why Choose the Bioenergetics Wellness System

Bioenergetics as the Future of Medicine

- The global complementary and alternative medicine (CAM) market, including energy medicine, is projected to grow at a 25.3% CAGR, reaching \$694.22 billion by 2030.
- Growth is driven by rising consumer awareness, increased access to online treatments, and the growing demand for holistic health practices.
- The Asia-Pacific region will experience substantial expansion, especially in energy-based treatments like reiki and acupuncture, contributing to the broader movement toward personalized and integrative healthcare.

Our bioenergetic software is the core of the system, rapidly assessing the body to identify areas needing support. It analyzes hundreds of bioenergetic parameters, detecting both specific imbalances and broader patterns for a complete view of the body's needs.

The true value of BWS lies in recurring revenue

Scan a client today, re-scan in 3-4 weeks, and sell the next set of products or miHealth sessions. With 10 clients a week, a practitioner can net \$6,000-\$12,000 monthly—without needing to expand physical space. (Scan charge: \$100-\$250; each client buys 5 Infoceuticals monthly).

Better and Faster Client Outcomes

- **Transformative Results:** Help clients achieve wellness, and they'll refer their friends! According to our surveyed health coaches, the vast majority reported better and faster client outcomes when using our approach alongside other healing modalities.
- **Harness the Power of Energy:** As a practitioner dedicated to making a difference, master the body's natural pharmaceuticals for healing.
- **Leverage Your Practice:** Scale your services online, in groups, or through self-coaching. Imagine a model where 10, 100, or even 1,000 clients each pay you \$50 a month for self-coaching. They can do unlimited scans, receive recommended Infoceuticals, and have them automatically drop-shipped—all while you make a difference!
- **Expand Your Team:** Leverage your time by having a BWS practitioner work for you or training someone within your practice.

ENERGY4LIFE

"Since adding Energy4Life to my practice, I have continued to demonstrate time and time again the power of quantum wellness, the power of the scan, and that the scan is never wrong. It can truly offer insights into the body, both mind and physical wellbeing that the medical community cannot comprehend often, nor understand. It truly is a remarkable system."

***Dr. Susan Bostian,
Integrative Health and Nutrition***

"I became an Energy4Life practitioner to take my well-being into my own hands after suffering from chronic pain for 9 years, yet the more I learned about my own energetic body and experienced the benefits of the BWS, the more I felt an urge to share it with the world. It is truly a rewarding job that has allowed me to find my purpose in life."

***Maximilian Waid,
Energy4Life Practitioner, USA***

"I've actually gone through several different technologies and I've had some success with them and love them but they always were missing something. When I discovered E4L health I was blown away by how much it encompassed because I teach Mind, Body, Spirit, and practices, and it really encompasses everything. It's shown in a format that your clients and your patients can understand and they can go home and do further research. It just seems so much more comprehensive than anything else on the market"
